EDUCATION

Florida Atlantic University

Boca Raton, Florida

Bachelor of Science in Civil Engineering | GPA: 3.3

July 2023

- **Relevant Coursework:** Design 1 & 2 | Prob & Stats for Engineers | Engineering Math | Calculus 1, 2, 3
- **Awards/Honors:** Design 1 & 2, People's Choice Award.

WORK EXPERIENCE

Prime AE Group, Inc

Lake Worth, Florida

Transportation Data Analyst & Engineer

Dec 2024 - Present

- Designed and deployed Power BI dashboards for several counties covering corridor performance, device health, and employee evaluations. Automations were set up in a virtual machine to run in a monthly schedule, securing all data sources in a government-owned Azure storage account, resulting in a marginal reduction in manual reporting time while complying with government data governance standards.
- Built executive-level KPM tools tracking revenue, AR Aging, Sales, and PM Metrics for senior leadership by querying data from a remote server using Deltek VantagePoint. This improved financial visibility for the CEO and reduced monthly close reporting cycles for the Finance Department.
- Built and maintained automated ETL pipelines in Azure Data Factory to consolidate travel time data for 162 roads in Hillsborough County — pulled from external APIs and processed as individual CSVs per road segment — into a centralized repository, further optimizing the pipeline end-to-end using Python scripts, resulting in an 80% reduction in processing time from 5 hours to 1 hour for county stakeholders.

Coke Consulting, LLC

Lake Worth, Florida

Transportation Engineer

May 2022 – Dec 2024

- Utilized Power BI to analyze smart traffic device data and develop dashboards/reports for SWZ projects, measuring travel time reliability and safety performance, improving efficiency and traffic flow recommendations for county/city reporting.
- Led planning and deployment of traffic cameras for vehicle counts and directional volumes, defining deployment procedures and retrieval methods, providing clients with comprehensive traffic management optimization strategies.
- Created Smart Work Zone documents across multiple counties by analyzing traffic devices, population data, peak hours, and safety measures, ensuring DOT compliance and demonstrating progressive experience in planning and reporting.

Green Scientific Labs, Inc

Davie, Florida

Intake Specialist

May 2021 – May 2022

- Actively participated in preparing test samples, performing QC protocols, maintaining meticulous lab records, and documenting test findings accurately in collaboration with teams from other departments.
- Monitored and reported on ongoing tests and experiments, promptly identifying and documenting any deviations or anomalies.
- Administered safe transportation protocol for cannabis samples, ensuring regulatory compliance and maintaining sample integrity, while implementing verification systems, guaranteeing the accuracy of samples acquired.

SKILLS & INTERESTS

Computer: Power BI, SQL, AutoCAD, SolidWorks, PTV Vissim, Synchro, MS Azure, MS Office.

Languages: English, Spanish.

Interests: Programming languages, business acumen, computer building, fitness.
